Flexible Impeller pumps

From the inventors of the flexible impeller technology, one of the most *flexible* pumping solutions. Industry
standard Easy Maintenance
port types

Industrial and **hygienic** applications

Pump head

in bronze, SS 316 or Epoxy

Flow rates

from 5 to 500 lpm (1.3 - 132 US GPM)

Pressure

up to 3 bar (45 PSI)

Impeller

in Nitrile, EPDM, Neoprene or Viton

Dry self-priming (7m - 23ft)

Pumps foam, solids and abrasive fluids

Flange or **pedestal** configuration

JABSCO

a **xylem** brand
